

10 Years of Modiji

What did Mysuru-Kodagu Get?

Report Card

Mysuru has 12 Engineering Colleges and 83 Degree colleges, yet there were no new employment opportunities. The talent pool from Mysuru used to look for jobs in Bangalore and other cities and this was the notion of the common man when I was elected as a Member of Parliament in 2014. While contemplating this issue I realised connectivity was a major concern for companies not setting up base in Mysuru. Hence, in the past 10 years, I have tried my best to improve connectivity to Mysuru through Railways, Highways and Airways. Along with this, I have also worked to bring drinking water and other projects to the Mysuru - Kodagu Constituency. Here is a small report regarding the projects implemented during my tenure.

**Thank you,
Prathap Simha**
